MEMORANDUM TO MR. KIRKPATRICK

At the Staff Meeting this morning, there were only two items, both brought up by Mr. Reber:

1. In relation to NSC 29, there was some discussion as to whether exploratory talks should be initiated with Army or Defense in relation to taking over CIA's responsibility for foreign field security investigations. Mr. [ ] suggested that it might be best to discuss the matter with General Magruder, and Mr. Reber will do so.

2. OCD is coming up with a paper on biographical registers and materials pointed towards possible further centralization in scientific, economic, and military matters. Mr. Reber will discuss this paper with the various agencies.
